

CD CASE PICTURE FRAME

Required Materials

- ♻️ Empty CD case

- ♻️ ribbon, buttons, puzzle pieces, shells, etc

- ♻️ wrapping paper, foam piece, newspaper (if you are using newspaper, you might need to put colored paper behind the picture to offset the newspaper), etc.

- ♻️ glue

- ♻️ scissors

- ♻️ picture (s)

Step-By-Step Procedures

Stand the CD case up on its side (you will have 4 sides of the CD case that you can decorate and put a picture on). At this point, you will need to decide which side(s) you would like to decorate and add a picture too.

1. Cut wrapping paper, foam pieces, newspaper or some other paper that you want to use, to the size of the CD case.
2. Glue these pieces to the side(s) of the cases that you plan to use. (You may need to pop out the middle plastic piece where the CD sits.)
3. Glue your pictures on top of the paper.
4. Glue ribbons, buttons, puzzle pieces, shells or whatever accessories you would like.
5. Dry completely.
6. At this point you can stand your CD case on its side and voila you have a picture frame.
