

TREASURE IN A BOTTLE

Required Materials

- ♻️ clear plastic bottle (choose the size that you would like to use)

- ♻️ uncooked rice

- ♻️ small items (i.e. beads, old plastic game pieces, buttons, small dice, rubber band, etc. – look around your house for old items you can use in your treasure hunt.)

Step-By-Step Procedures

1. Remove label from bottle and clean it well.
2. Drop small items into the bottle. (How many you use depends on the size of your glass jar)
3. Add uncooked rice to fill the bottle two-thirds of the way and then tightly screw on the cap.
4. Shake well to conceal the objects.
5. Now your child can twist and turn his or her toy to see how many treasures he or she can spot inside.
